The amendment received March 1, 2004 has been made of record. Claims 35-68 are pending.

Claims 35-68 are rejected under 35 U.S.C. 102(b) as being anticipated by Cohen et al.

This rejection is maintained substantially as set forth in the previous office action. Applicants arguments in traversal appear to focus on the fact that Cohen et al do not teach by specific example the use of activators within applicant's newly claimed range. It is the position of the examiner that the reference need not provide a specific example in order to satisfy the requirements for rejection under 35 USC 102.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
